

Dear Sir/Madam,

I am writing to express my interest in the Koopbank Summer Internship Programme. I am currently a third-year Computer Engineering student at Cyprus International University with a strong academic record and hands-on experience in programming and robotics. I am eager to contribute my technical skills to your organization and gain practical experience by learning from experienced professionals.

My background includes participation in both national and international robotics competitions, as well as active involvement in our university's Computer Science Club, where I serve as Secretary and a board member. In this role, I have led several tech-focused initiatives, fostering collaboration and innovation among students. I am particularly interested in the intersection of finance and technology and would be excited to contribute to Koopbank's forward thinking projects, particularly in areas such as digital banking and software development.

I am enthusiastic about the opportunity to learn from your esteemed institution and to grow both professionally and personally through this experience. Thank you for considering my application.

Sincerely,
Delight Chirume
