EDUCATION

Bachelor of Science in Computer Engineering CGPA: 3.61/4.0

Cyprus International University

- Expected Graduation: June 2026
- Scholarship: Women Empowerment Scholarship (merit based scholarship focused on STEM fields)
- Core Courses: Data Structures, Object-Oriented Programming, Signals and Systems, Operating Systems, Database Management Systems and Programming, Data Communications and transmission ,Microprocessors, Fundamentals of Computer Networks, Software Engineering, Computer simulations

WORK EXPERIENCE

Office Assistant

February 2022 – September 2022

Falcon Electronics, Harare

- Inventory & Sales Tracking: Maintained precise inventory and sales records using Microsoft Excel.
- Financial Management: Managed invoicing and financial records using Microsoft Excel

PROJECTS

Line-Tracking Robot – ITURO Robotics Competition (2023)

- Designed and developed a line tracking robot using Arduino as a team, and we managed to get it to the competition, gaining valuable experience in robotics and autonomous system algorithms under resource constraints.

CPU scheduler simulator using C++ (2024)

- Implemented a CPU scheduler supporting six algorithms: FCFS, Priority (Preemptive & Non-Preemptive), Round Robin, and SJF (Preemptive & Non-Preemptive), optimized for Linux OS.
- Designed a file-based input/output system for scheduling parameters, with command-line argument parsing for flexibility.
- Developed without arrays or C++ vectors, adhering to strict memory constraints using linked lists and other data structures.

Fire-Fighting Robot – Team Leader (using Arduino IDE) (2024)

- Led a team in creating a fire-detection robot, focusing on sensor integration and response mechanisms, which strengthened my leadership and technical skills.

Tourism management system using SQL(2024) and PHP-Developed a database-driven system for managing bookings and tourist records for ease of information management.

LEADERSHIP AND EXTRACURRICULAR ACTIVITIES

- **Secretary, Computer Science Club** (Cyprus International University)
- **Organiser Robotics Club**- Organized workshops and advocated for resources to enhance Computer science club members experience.
- **First Global Robotics Competition OCTOBER 2019** -Selected among five students to represent Zimbabwe, competing internationally and further developing engineering skills in a fast-paced setting.

SKILLS AND INTERESTS

- Programming: C++, C, C#, Java, Matlab, python (basic)
- Software Development: Algorithm design, Object-Oriented Programming (OOP), fundamental web development (HTML, CSS, JavaScript), flutter
- Robotics & IoT: Sensor integration, Autonomous navigation, Microcontroller programming
- Operating Systems: Linux (GNU), Windows
- Database Management: SQL, MySQL
- Version Control: Git, GitHub
- Soft Skills: Leadership, Teamwork, Problem solving, Communication
- Languages: Fluent in English, Shona; Chinese (HSK 3)
